

**WECO**[®]

Elevator Industry

Safety first

Connectors for highest performance

Passenger transportation by lifts is nowadays commonplace. Pushbutton controls and safety features such as card readers are no longer anything special. Nevertheless, passenger safety has top priority. Connectors must be vibration-proof and must have a long service life. You get these features and more with the use of WECO products.

With over 100 years of experience in the world of connectors, WECO is the supplier for most reliable and superior components, which are characterized by highest quality and longest durability.

WECO is your first choice in tailored electrical connection solutions for industrial application worldwide.

KEY FEATURES

Zero-failure-principle: Only flawless products are shipped to our customers.
Ready for Plug & Play.

Vibration-proof: Special versions of our connector systems with mounting flanges ensure additional security of the plug connection.

Snap-in hooks additionally secures the connection

An acoustic feature of the snap-in hook indicates the correct connection when plugging male and female connector together.

High-quality materials guarantee a long service life without the need of maintenance

UL and CSA certified products

Can't find the right product? We help with our 100 year experience and come up with a tailor-made solution especially for you!

ADAPTABILITY.
RELIABILITY.
PERFORMANCE.

Our Key Performance Indicators

Proud of our operational excellence and solid performance, we have set KPI's to represent what our customers value the most.

Safety and Maintenance with high priority

Especially for applications in passenger transportation, such as passenger lifts, safety and maintenance-free solutions are top priority. In addition to a secure connection of the plug-in components, a long service life of the products and the associated elimination of repeated maintenance are essential attached.

Here are some examples of our top products that are already being used by the lift industry today.

SERIES 950

- PCB connector in SMarTconn-Technology
- 5.00 mm pitch
- Floating terminal body for 100% coplanarity

SERIES 411

- Housings for tab and receptacles connection
- Easy connect and reconnect
- Additional flanges for securing

SERIES 110

- 3.5 mm pitch plug connector system
- Flanges and screws for additional vibration safety
- Optimal for use in control systems e.g. light signals

SERIES 302

- 8.0 mm pitch
- 17,5 A
- Minimum installation space required
- Special "no flame" housing

SERIES 121

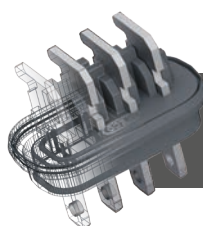

- 5.08 mm pitch
- Snap-in hooks for more secured connections
- Wide range of Variations
- Additional coding of poles available

SERIES 327

- 14.5 mm pitch
- Capable of 76 A
- Conductor space of up to 4 AWG
- Special "no flame" housing

Tailored Solutions

Consider WECO to be your first choice in tailored electrical connection solutions for various applications worldwide.
